Get your national certification as a CPM via NARM

North American Registry of Midwives

What Is A CPM

A Certified Professional Midwife (CPM)® is a knowledgeable, skilled and professional independent midwifery practitioner who has met the standards for certification set by the North American Registry of Midwives (NARM) and is qualified to provide the Midwives Model of Care. The CPM is the only midwifery credential that requires knowledge about and experience in out-of-hospital settings.

Did you know that Licensed Midwives can work as Independent Providers?

Licensed Midwives can have their own Home Birth Practices

http://www.austinareadoula.com

Licensed Midwives can also be hired by Birth Centers Throughout the State

Jenkinson, B., Josey, N., & Kruske, S. (2014). BirthSpace: An evidence-based guide to birth environment design.

- Those people who give birth at home or in a birth center depict the experience as ‘spiritual’ and ‘sensual’, categorizing it as a passionate birth, as compared to those who birth in hospitals. Considering this, the encouragement of intimate environments, particularly home births when it is clinically indicated, is the most supportive environment for positive birth experiences.
